

Preparing your Domain to transfer from Namecheap

Getting Started

Before you can transfer a domain:

- **Disable** domain/whois privacy. If the privacy service forwards incoming email, check the 'forward to' contact email address for accuracy.
- **Confirm** your administration email address in the domain registry records.
- **Verify** that the domain is unlocked.
- **Obtain** the domain's transfer authorization code (also referred to as an EPP or auth code).

Note: Registrar rules vary. Your domain may not be transferable within 60 to 120 days of registration, a previous transfer, or renewal.

Your account

- Go to: namecheap.com
- You will need your account username and password.
- If you do not have your account details, you will need to contact Namecheap. You can contact support by opening a ticket or via live chat.

Step 1: Go to namecheap.com and login to your account.

The screenshot shows the Namecheap website homepage. The browser window title is "Namecheap.com - Cheap domain name registration, renewal and transfers - Free SSL Certificates - - Microsoft Inter...". The address bar shows "http://www.namecheap.com/". The website header includes the Namecheap logo, navigation links (Home, Register a Domain, Transfer Your Domain, Privacy Protection, FreeDNS, Web Hosting, SSL Certificates, Marketplace, My Account), and social media links (LIVE SUPPORT, BECOME A FAN ON FACEBOOK, FOLLOW US ON TWITTER, FORUMS). A prominent yellow banner reads "REGISTER YOUR DOMAINS FOR JUST \$9.69. SEARCH NOW!". Below this, there are two steps: "1 Enter the domain name you want" and "2 Choose your preferred extension(s)". The domain search input field contains "www.". The extension selection area includes checkboxes for com (checked), net, org, us, biz, info, eu, and me. A "Search" button is present. To the right of the search area is a "Need Help? Try LIVE SUPPORT" button. Below the search area, there is a "Login to your account" section with fields for "Username: Type username here" and "Password: Type password here", and a "Login Now!" button. There are also links for "Password Reset" and "Signup for a Free Account". A "Promo: Domains \$2.99 Only" section features a "LIMITED TIME ONLY Get domains for \$2.99 when purchased with a GeoTrust RapidSSL certificate." and a "Learn More..." link. The "Our Products" section highlights "RapidSSL™ 10⁹⁵" for \$9.95, with a "Start Transfer Process!" button and a "Learn More | Transfer Process" link. The "Services Included With Every Domain" section lists features like "Free URL Forwarding", "Free Email Forwarding (No Ads)", "Free Parking Page Included", "Free Transfer of Ownership", "Free Dynamic DNS With Client", and "Free Security Features". A testimonial at the bottom right says "Hey guys, This is Chris F. from Moonbox Design. I just wanted to say its a small".

Step 2: Click Manage Domains.

The screenshot shows the Namecheap member dashboard. At the top, there is a navigation bar with links for Home, Register a Domain, Transfer Your Domain, Privacy Protection, FreeDNS, Web Hosting, SSL Certificates, Marketplace, and My Account. Below this is a secondary navigation bar with links for Member Home, Manage Domains, Manage Transfers, Renew/Reactivate Domains, Manage Profile, Add Funds, Withdraw Funds, and Reports. A search bar is located at the top right, with the text "Domain Search: www." and ".com" and a "GO" button.

The main content area is titled "Bob's Home Page" and is divided into several sections:

- ACCOUNT INFORMATION**: A table showing account details.

Number of domains in your account	1	view
Domains expiring within 30 days	0	view
Domains you have listed for sale	0	view
Domains you have placed offers for	0	view
WhoisGuard subscriptions	1	view
WhoisGuard expiring within 30 days	0	view
Transfer requests in progress	0	status
Number of unread recent messages	1	read
- QUICKLY MODIFY ONE OF YOUR DOMAIN**: A form with the text "Enter domain: www." and a text input field containing "yourdomain.com". Below the form is a blue button labeled "Modify >>".
- Special Offer**: A yellow banner for ".tv" domains, stating "just \$17.99 only" for the 1st year, with a regular price of \$24.99. Below the banner are links for "view chart" and "hide this for 30 days".
- FUNDS IN YOUR ACCOUNT**: A table showing account balances.

Available Balance	\$0.00
Account Balance	\$0.00
Earned Amount	\$0.00
Withdrawable Amount	\$0.00
Auto Renew Requires	\$0.00
- More Links**: A list of links including "Your Domains / Products", "Domain Transfer Status", "Your Hosting Accounts", "Order History", "Transaction History", "Modify Multiple Queue", "Get EPP Code", "Affiliate Program", and "Contact Us".
- Last Login**: 11/18/09 02:24 PM
- Last Transaction**: 11/05/09 05:05 PM

At the bottom of the dashboard, there are logos for PayPal and Google Checkout.

Step 3: Click the domain name that you want to transfer.

My Account > Manage Domains

Domain Search: .com

column heading legend: sortable column currently sorted column

Step 4a: Disable Privacy. This is required to complete the transfer. If **WhoisGuard** is disabled, skip to **Step 4c**. If not, click **Disable WhoisGuard**. Then, under **Email Address**, check the forwarded to (Admin) email address. If the email address is incorrect, click **Change Protected Contact Information** in the **WhoisGuard – Enabled** section.

The screenshot shows a web interface for managing a domain. The breadcrumb trail is: My Account > Manage Domains > Modify Domain. The domain search bar contains 'www.' and '.com'. The main heading is 'Modify Domain: castleanthrax.info'. There are three main sections: 'WHOISGUARD - ENABLED', 'EMAIL ADDRESS', and 'SCHEDULE AUTOMATIC EMAIL CHANGE'. The 'WHOISGUARD - ENABLED' section has a red arrow pointing to the text 'WhoisGuard is currently enabled for this domain.' Below this, it says 'Your personal information is protected from public access [Disable WhoisGuard]. [Change Protected Contact Information]'. The expiration date is 'Friday, November 05, 2010'. The 'EMAIL ADDRESS' section shows the current WhoisGuard email as 'c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com'. It offers a link to 'Set a new random whoisguard email in whois'. Below, it states 'Currently, c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com forwards to mail@registrarresearch.info. You can choose a different email address where the whoisguard emails are forwarded to.' A dropdown menu is set to 'mail@registrarresearch.info (Admin Email)'. There is a 'Change Forwarded To Email' button. The 'SCHEDULE AUTOMATIC EMAIL CHANGE' section has a checkbox for 'To enhance privacy, automatically change WhoisGuard email every [dropdown] days'. There is a 'Save Preference' button.

Step 4b: When you click, **Disable WhoisGuard**, you will be asked to reconfirm by selected the check box.

 **Modify Domain: [castleanthrax.info](#)**

▶ **DISABLE WHOISGUARD NOW**

Currently, the WhoisGuard email - `c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com` is being forward to **mail@registrarresearch.info**. If you disable WhoisGuard, the WhoisGuard email will be removed and any emails to that address will be rejected.

- Disable WhoisGuard protection and use the information provided below.
(You should click the 'Save Changes' button below)

Step 4c: Update Contact Information.

This step ensures that you will receive all notifications for your transfer request. Scroll to the contacts section on the same page. Verify and make any changes to the Registrant and Administrative Contacts.

 **Modify Domain:** [castleanthrax.info](#)

Step 8: Obtain Auth Code.

Enter the domain name that you want to transfer and your account password, and then click **Get EPP code for my domain**. The authorization code will be emailed to your administration email address. The auth code will be required by your new domain provider to complete the transfer.

Get EPP Code For Your Domain(s)

Use this option to obtain EPP code for your domain if you are planning to transfer the domain to some other registrar. **Please note that the EPP will be emailed to the Registrant contact on the domain**

ENTER THE DOMAIN NAME AND YOUR ACCOUNT PASSWORD TO GET EPP CODE

Domain Names

Enter one domain in each line. Please don't enter www. in front of the domain.

castleanthrax.info

Authenticate by entering your account password.

●●●●●●●●●●

[Get EPP code for my domain >>](#)

NOTE: Enter the information above to obtain EPP code for domains that you want to transfer out of namecheap. Not all domains need EPP, but some domains like .biz, .info, .org needs the code to be transferred out. If you still have problems, please contact support.

Important: Everytime you obtain an EPP, a new code **may** be generated and emailed. So, try avoiding epp generation more than once or if you do, make sure you use the latest one.

You are now ready to transfer your domain.
